

Congratulations on Your Purchase!

**Please Register Your Warranty @
www.wizardscreens.com/warranty-registration**

WARRANTY

Wizard Screens offers a **limited lifetime** warranty on all components, excluding motors, screen mesh and vinyl, to the original purchaser of the SmartScreen Motorized from the date of purchase. This warranty is non-transferable and will remain intact for the original purchaser provided the product was installed by an Authorized Dealer and/ or factory trained installer and has not been moved or altered in any way.

SOMFY warrants its motors to be free from defects in material and workmanship under normal and proper use for a period of **5 years** starting from the date stamped on the motor.

Paint Finish warranty is **10 years** for powder coated or painted exposed surface of aluminum and steel components against corrosion and cosmetic deterioration under normal conditions and use.

Wizard warrants the components shall be free of defects in materials and workmanship. "Defects" are defined in this warranty as imperfections that impair the utility of the retractable screen. Wrinkles in the mesh or puckering along its edges in itself does not constitute a defect.

The limited warranty does not include components that have been damaged by misuse, abuse, unauthorized repair or modification, lack of maintenance, normal weathering, fading, scratching, airborne or applied corrosive contaminants, acts of God or other causes beyond the control of Wizard Screens. If a component is defective and you require assistance, please contact your original point of purchase.

MAINTENANCE & OPERATION

To ensure your SmartScreen Motorized functions for years of trouble free use it must be maintained and operated in accordance to these guidelines.

Use

Screens should be retracted when not in use. This helps maintain the longevity of your screen and keeps screens clean, as well as keeps the screens from getting damaged.

Cleaning

Mesh can be cleaned with a dry microfiber cloth. Do not vacuum as vacuuming has the potential to rip the mesh. Vinyl can be cleaned with warm water and mild detergent, or with a specialized clear vinyl cleaner.

Service

If you require service or have any questions please contact the original point of purchase to arrange a service call.
